

## WAR TO SAVE SPAIN

NOT FROM OUTSIDE ENEMIES BUT  
INTERNAL FOES.

## PLAN IS DESPERATE

BUT CANOVAS KNOWS IT IS HIS  
ONLY WAY OUT.

WHEN UNCLE SAM CROWDS HIM

THERE WILL BE AN IMMEDIATE  
DECLARATION OF WAR.

Thus Solidifying All Spanish Factions and  
Parties Until Cuba Can Be Disposed  
Of for the Common Good.

(Copyright 1897 by the Associated Press.)  
London, July 31.—A Spanish diplomatist who is in close touch with Senor Canovas de Castillo, the Spanish premier, informs the correspondent of the Associated Press that it is useless longer to attempt to disguise the fact that the Spanish ministry is in a very tight place. He says:

"We can keep the war in Cuba only so long as our funds last, and the time when they will fail is almost in sight. When it comes, we must give up the struggle. Now we are too proud a race to do so at anybody's demand, but we can do so by pleading force majeure in a war with the United States. Such a result naturally would be very unpleasant to us; but in order to prevent a revolution in Spain and the overthrow of the monarchy, war is the only way out."

"The premier knows from President McKinley direct that the president personally does not want war and wishes to save us from the cost and the bloodshed. But his cabinet only partly share his views, while the senate, the house of representatives, the American press, and the people of the United States favor argument with big guns."

"President McKinley, however, first for peace, has declared himself as not shrinking from war if peace measures fail. This is the position and naturally lends strength to the independent course which General Woodford will pursue. His instructions will be at the outset to attempt to obtain for Cuba the peaceful means of Cuban independence. He is destined to be defeated in his proposal the moment it is made; for Spain would infinitely prefer war, with or without the encouragement of other nations, to any surrender on the Cuban question. This is the fact, and the premier sees no other way out of the present impasse in Spanish politics. He will court war the moment the United States becomes imperative in its demands. The wave of great emotion and patriotism such a war would call out in Spain would naturally sink all threatening domestic questions and disturbances. The Carlists, Republicans, and all others would unite for the nation as they could be united by nothing else; and when done, if Spain should be defeated, Cuba could be surrendered without incurring all present political and monetary institutions."

## NOW BUTTING THE SCHOOLS

Speakers threaten to stop all over itself

When it comes to America.  
London, July 31.—The Spectator, in a glowing article entitled "Aggression of American Wealth," refers to the retirement of President Andrews from Brown university, and Professor Bemis from Chicago university, saying:

"We can scarcely escape the conclusion that a conspiracy exists among the heads of trusts in America to interfere with the freedom of teaching in the universities, so far as economic questions are concerned, in order that nothing shall be uttered which has not received the trade mark of monopolistic approval."

The paper pictures the Americans as reduced almost to the situation of Russia by the censorship of wealthy magnates over the universities, and says:

"Capitalists have subsidized the pulpits, bought up the press, sent well paid attorneys in the senate, and finally have stretched their hands out to the colleges, which it is an easy thing to capture by such generosity as Mr. Rockefeller's. Apparently it is their intention to convert the United States into a powerful oligarchy, and they will extend the sway of that oligarchy to other lands when they can."

## FIRST LOAN OF THE REPUBLIC

Interesting Historical Document Unearthed in Belgium.

London, July 31.—The Brussels correspondent of the Pall Mall Gazette has made an interesting find.

At Antwerp he has unearthed a document which describes the first loan contracted by the United States. It is now in possession of a prominent Belgian family.

It is dated Antwerp, December, 1791, "confirmed" at Philadelphia May 5, 1792, signed by George Washington and Thos. Jefferson and certified by Alexander Hamilton.

## NEW GERMAN RIFLE ALL RIGHT

But It's Awful Tough on the Poor Fellow's

It's Tied Up.

Berlin, July 31.—The whole Liberal press is in arms against the act of a squire who killed an escaping soldier under peculiarly atrocious circumstances. The man, Sarenba, had overstepped the boundaries of the fortifications at Danzig and was being taken to the guard-house when he broke away and ran. The squire fired and the bullet passed through Sarenba's head and two balls of an iron knob, burying itself in a brick wall. This certainly proves the efficiency of the German guns, but the incident adds fuel to the flames of popular resentment against military severity.

## OFF FOR ST. PETER-BURG

William Will Stobber Over Nicholas Now

In a Few Days.

Berlin, July 31.—Emperor William reached Kiel on board the imperial yacht Hohenzollern yesterday. On Thursday next, accompanied by the empress, and

by the entire fleet, under command of Prince Henry of Prussia, his majesty will start for St. Petersburg to visit the czar Prince Hohenzollern will join the emperor at Peterhof.

The municipal authorities of St. Petersburg will signalize the visit by presenting to their majesties slices of bread on a silver dish and salt in a silver salt cellar, both richly ornamented in the Russian style and engraved with the joint arms of St. Petersburg and Germany. Upon the rim of the dish is the following inscription: "To their majesties, the emperor and empress of Germany."

## WILL SHERMAN RETIRE?

If He Does, Germany Has His Successor

Selected.

Berlin, July 31.—The rumor in London concerning the possible retirement of Secretary Sherman are echoed here, even in official German and American circles, but with this difference, that Mr. Sherman is to be succeeded, not by Mr. Waldersee, Reid, but by Ambassador Waldersee. Goeben even goes so far as to attribute Mr. White's hesitation to leave the Kaiserhof hotel for permanent quarters to the possibility of his having soon to return to Washington.

New York, July 31.—Jubilee Ambassador Whitehead and family were passengers on the steamship St. Paul, which arrived from England today.

Mr. Reid told all the reporters who saw him that he had nothing to say for the public press at present, and that even if he had, his first duty was to report to the secretary of state, and to the president. He therefore answered no questions whatever, positively declining to be interviewed.

New York, July 31.—Secretary Sherman, it was reported at Amagansett, L. I., today, will remain another week with his daughter. He is gaining strength daily. He spends the time in still water bathing in the morning and walks and drives in the shade during the afternoon. Business and politics are not occupying his mind.

## TERRIBLE FLOODS IN EUROPE

Nothing Like the Present Devastation in a Century Past.

Berlin, July 31.—The devastation caused by the floods in Silesia is widespread. Nothing like it has occurred in the district for a century. The loss already reaches many millions of marks. It is estimated that a hundred persons have perished by drowning in Silesia and Bohemia. At Leobnitz, a town half recently built and two other large buildings have collapsed. The rivers are still rising. At Ischl the people are leaving their houses. It is feared that the great Elzabeth river bridge will be swept away. A large bridge at Lauffen has been torn away by the flood. The emperor, who displays the greatest interest in the situation, is being kept closely advised from all parts of the devastated district.

London, July 31.—A special dispatch from St. Petersburg says that the Novovostoi estimates that at least one hundred persons have perished in the recent floods at Kerch in the Crimea. Kerch is a fortified town on a tongue of land forming a peninsula of the same name, noted for its mud volcanoes, on the strait of Yeuakale, connecting the sea of Azov with the Black sea. The modern town is of very recent origin. In 1827 it was declared a free port. The government has established a naval station there.

## FUTURE THICK WITH PERILS

Paris Journal Prophesies Anglo-German

Twenty Matters.

Paris, July 31.—The Eclair, commenting upon the denunciation of the Anglo-German treaty, says:

"It is the commencement of a gigantic commercial duel, and a threatened outbreak between the two countries. At the same time it is a real declaration of war, and the struggle will be fought to the death. The future appears heavy with threats and danger."

Berlin, July 31.—The attitude of the German press in the matter of the denunciation of the Anglo-German treaty is pacific, the newspapers generally following the keynote sounded by the semi-official press.

## SOMETHING LIABLE TO DROP

Events of Most Potent Gravity Fore

shadowed in Athens.

Paris, July 31.—It is rumored that the possible abdication of the King of Greece has inspired the following dispatch from Athens:

"It is stated on good authority that in the event of a proposal looking to the establishment of government in control of the Grecian princes being adopted by the powers, the king will make a declaration of exceptional gravity."

Russia and Germany, having counseled Greece to submit to the conditions imposed by the powers, M. Ralli, the premier, replied orally that Greece would never entertain the idea of financial control proposed, and that she would help herself."

## TRINEMEN ARE STUBBORN

Attacks of the Boaters of Hills on the

British Forts Continue.

Sinla, July 31.—The latest advice from Camp Makhalland indicates that the enemy is endeavoring to shut off the reinforcements now en route.

London, July 31.—The Indian office has received a telegram from Sinla saying that word has reached there that Chak-dara was attacked by the natives about 2 o'clock p. m. on Thursday, and that fighting continued until about 8 o'clock a. m. (Friday). The English lost five wounded. The native loss is not known. It is believed to have been heavy.

The government is also informed that the British force sent to reconnoiter in the direction of Chak-dara, with a view of punishing them, if possible, was unable to effect its object.

## KAY COUNTY'S WHEAT CROP

Yield and Weight Above Expectation and

Farmers' Anticipation.

Newkirk, O. T., July 31.—(Special).—The extreme warm, dry winds the past two days has materially lightened the corn crop, but a fair crop is already assured.

Wheat is turning out much better than was expected, a great deal of it running over-weight, as well as more per acre. The market is well supplied, but the bulk of it is being held for advanced prices, which are confidently expected during the fall. New grainaries dot the whole country.

The series of revival meetings being held in a tabernacle on the square by Rev. Parker of Guthrie, will close tomorrow night, having been in progress two weeks.

## FLOCKING TO JAIL

ACCUSED PEOPLE ABOUT PAWNEE  
DELIVER THEMSELVES UP.

Sheriff Lake is Astonished at Visits From  
Gentlemen in Trouble With the Law or  
Who Expect to Be—Mr. Krebs Walks  
Eight Miles and Comes Forged for a Long  
Stay in the Hotel De Lake, While a  
Young Man Whose Name is Not Stated  
Endorses to Have Himself From Ar-

rest—Other Cases at Pawnee.

Pawnee, O. T., July 31.—(Special).—Tuesday, a man by the name of Krebs, who lives about eight miles from town, walked into Sheriff Lake's office and stated to him that he had come to town to be locked up in jail and lay out his time for shooting at a neighbor's stock, for which he had been tried and convicted some time ago. The sheriff had no commitment, but went to the probate court and the man was accommodated. He had walked the eight miles and brought his bedding with him.

In the afternoon of the same day a young man came to the sheriff and inquired if he had a warrant for him for horse stealing, and stated that if he had heard that he had and if so he was ready to give himself up. The sheriff inquired his name and told him he had no warrant. When the young man stated that he would probably have one soon, and told him that when he got it to write and he would be on hand. Either our people are getting very honest or they are getting to learn that Sheriff Lake will see that the laws are enforced.

A man by the name of Bradley, a negro, some days ago married a white woman, and both were tried for violation of the laws. The jury were out only about ten minutes when they returned a verdict of guilty. The court sentenced them, the woman to fine of \$100 or thirty days in the county jail, and Bradley to a fine of \$200 or sixty days in jail.

Wednesday Leander Thompson was tried, or rather, his preliminary was held on a charge of rape on the person of his step-daughter, a small girl of about 14 years of age and very delicate for her age. She has stated the facts to Sheriff Lake and Dr. Baker.

The business men of Pawnee made arrangements for a cotton gin at Pawnee yesterday, and the required bonds were raised in fifteen minutes.

## TOM REED DIDN'T DO IT

Had There Been More Roads Flynn Would

Have Been Elected.

Ivy, O. T., July 31.—(Special).—I see that a letter printed in your paper charges Tom Reed as being the cause of Flynn's defeat. As my knowledge of the situation leads me to know that if we had more talk like Tom Reed put up we would have elected Flynn. The people were led to believe that all the parties were favorable for free homes for Oklahoma. Flynn himself, in the generosity of his heart, told the people that he would do all he could for them even if he was defeated. Getting free homes was just as easy as falling off a log; anybody could get it, was the tale that went throughout my county. While the fact was that all there was in free homes Flynn had made it. The defeat of Flynn was the defeat of free homes. If the people had understood it that way they would have returned Flynn.

Then again, Oklahoma was full of free silver sentiment and the people thought all the world was going that way and they thought they would vote for Callahan and get both free silver and free homes.

The idea that the people got on their dignity and defeated Flynn because Tom Reed told them they must return him is all foolish. There is nothing so close to the people as to get their ink free from the government, and the conservatism among them when they realized what they had done could be seen and felt everywhere. If another election could have been held they would have returned Flynn with an immense majority.

The people now realize that the Republican party is the only free homes party and if our statesmen conduct the affairs of the party properly the people will be glad to return at the next election a congressman that will be in line with the Republican administration.

Oklahoma Case.

Guthrie, O. T., July 31.—W. G. Smith, of Fredonia, Kan., the man over whom the trouble arose between Miss Grace Allen and Miss Alonzo Eckes, resulting in Miss Allen's arrest for attempted poisoning of her rival, was married to Miss Eckes at her parents' home near Baker, O. T., last night, Rev. J. Eckes, father of the bride, performing the ceremony.

## COUNTY ATTORNEY KNOCKED DOWN

Jack Tillman Lets no Lawyer Call His Wife

a Lie.

Guthrie, O. T., July 31.—The Sulphur Gazette says: In arguing a case before Justice Duck last Tuesday afternoon, County Attorney Noll insinuated that one of the witnesses, Mrs. J. J. Tillman, had sworn falsely and almost before the words had fallen from his lips he was picking himself up from the corner of the room, where he had been sent at lightning speed by a blow from one of Jack Tillman's brawny fists. A few more details of this kind and probably attorneys will learn to treat witnesses with due respect.

## SUNDAY SCHOOL CHILDREN ESCAPE

Moody Valley School House Near Guthrie

Struck by Lightning.

Guthrie, O. T., July 31.—The Moody Valley school house about five miles south west of town, was struck by lightning last Sunday evening and one of the buildings was badly demolished. The siding on this end was entirely stripped off in splinters, one of the building torn to shreds and several others more or less splintered. The roof also sustained some damage. Fortunately no one was near the building at the time. Sunday school having been dismissed about an hour before.

## HUSBAND DOES A FOOLISH THING

Puts a Revolver in His Wife's Hands, Who

Lets It Off Accidentally.

Edmond, O. T., July 31.—Mr. and Mrs. Ed. Hayes, who reside on Coddman road

were driving home from Guthrie, on Tuesday, when Mrs. Hayes noticed a number of rabbits along the road. She suggested to her husband that he shoot them with his revolver. Mr. Hayes remarked that he would let her have the revolver and the next rabbit appeared she could try her hand. Mrs. Hayes took the revolver and proceeded to lay it in the seat. In doing so the weapon was discharged, the ball entering her hip with a downward range. The first physician called refused to probe for the ball; another physician was summoned. The wound is a most serious and perhaps fatal one.

## COAL FOUND IN GREER COUNTY

in Abundance.

El Reno, O. T., July 31.—John Fox was in from his farm near the Post yesterday, and while he told an El Reno reporter that he had just received a letter from E. A. Williams, ex-county surveyor of Washita county, stating that he had just discovered a fine vein of coal in Greer county. He suggested to the reporter that it would be well to organize a stock company here and go down and take a look at his find. He says it is near Navajo, and that it is a big find.

He was thrown heavily to the ground and was seriously if not fatally injured.

One of the girls went to the well for a pail of water and while the well was open the little one wandered to the edge of the well and fell in, and before assistance could be obtained it was drowned.

## FARMERS ARE HOLDING WHEAT

Men About Norman Are Storing for Higher

Prices.

Norman, O. T., July 31.—The Transcontinental says: Norman is marketing less wheat than any railroad town in the territory this year. It is not because the wheat is not in this vicinity, for it is, but because the farmers are not delivering their grain. Nearly all that have so far threshed in this neighborhood have stored all or the greater portion of their wheat for higher prices.

## SUING FOR HIS SALARY

Ex-Treasurer of Woods County

Plaintiffs an Impotent Question.

Guthrie, O. T., July 31.—The Alva Review says: A suit has just been instituted by J. P. Renfrow, ex-treasurer of Woods county, against the board of county commissioners claiming \$257 as a portion of his first quarter's salary in 1895. The above amount was paid in warrants that were not legal on account of the over reaching of the four per cent limit prescribed by law. The result of this suit will be watched by the taxpayers of the county with more than usual interest, for if decided to be a valid claim, it will open the door to the county's liability for the payment of some \$16,500 of a similar class of warrants now outstanding.

## GRUB STAKE AT GUTHRIE

## TEXAS WANTS MUMFET

And is Liable to Want Him Worse Before

She Gets Him.

Guthrie, O. T., July 31.—(Special).—Acting Governor Jenkins has been served with a requisition from the governor of Texas demanding the person of J. W. McMurry, who is under indictment in the Hemphill county case, on a charge of kidnapping one H. J. Young out of \$125 by means of a bogus draft in 1896. McMurry is a leading Democratic politician of Roger Mills county, was county attorney for two years and during the session of the last legislature was assistant chief enrolling and engraving clerk. In view of the prominence and the fact that he has made no attempt at concealment, his capture will be a matter of time. It is believed that Texas can only mean a case of blackmail or extortion.

G. Jones, president of the local company, was telegraphed to that effect at St. Louis, and was instructed to bring on the necessary papers and contract to close the deal.

## EXPERT SENT OUT

TO SPEND THE WINTER IN THE  
KLONDIKE GOLD CAMPS.

Commissioner of Labor Wright Puts a Man  
on the Road, to Leave San Francisco  
August 9, and From There to Take the  
Overland Route to the Gold Diggins—  
He is to Give the Results of His Travels  
and Observation for the Guidance of  
Intending Gold Seekers and All Inter-

ested in Going There or Investing.

Washington, July 31.—Expert Samuel C. Dunham of the federal bureau of labor, left here today for the gold belt of Alaska, where he will make investigations and report in time for the projected spring migrations. Mr. Dunham is well equipped for the work, having spent much time in the mining camps of the west, and for eleven years he has been one of the corps of experts of the labor bureau engaged in the investigation of special problems.

He has been instructed by Commissioner of Labor Wright to make a critical inquiry into the opportunities for business, for investment of capital, employment of labor, wages, cost of living, climate, best means of reaching the gold fields, and kindred subjects. He will go direct to San Francisco, and will sail from there August 9, taking the Juneau overland route and reaching the Klondike region about the middle of September. He will watch the winter and early spring work and is expected to send material for a special report, which, it is hoped, will be published about March.

## TROOPS FOR ALASKA

Cheyenne, Wyo., July 31.—In accordance with orders received today from the war department, Captain H. P. Ray and Lieutenant Richardson, of the Eighth infantry, stationed at Fort D. A. Russell, will leave tomorrow for Alaska. They go to investigate the situation and report upon the advisability of sending troops to that region. It is understood that if they report the need of troops there, Colonel Randall will be ordered north with one or more companies as soon as transportation becomes possible in the spring.

## THE GLACIAL QUARTZ MILL

Washington, July 31.—Nothing can be done more than already has been done towards marking the boundary line between Alaska and the British possessions along the 141st meridian upon the boundary treaty now before the senate. There is, however, no doubt of the location of the line along this meridian and most people in the locality know where it is. The demarkation work was superintended by General Duffield, in charge of the coast and geodetic survey, on behalf of the United States. General Duffield has spent considerable time in Alaska. He expressed the opinion that a railroad easily can be constructed from Takau into the Klondike gold fields and believes the enterprise well worth undertaking.

"The gold," said General Duffield, in discussing the question, "has been ground out of the quartz by the pressure of the glaciers, which lay along the courses of the streams exerting a tremendous pressure. This force is present to a more appreciable extent in Alaska than elsewhere, and I believe that as a consequence more gold will be found in that region than in any other part of the world."

General Duffield thinks the gold hunters on the American side have made the mistake of prospecting the large streams instead of the small ones. "The gold," he said, "is precipitated," he said, "it sinks. It does not float down the stream. It is therefore to be looked for along the small creeks and about the headwaters of the larger tributaries of the Yukon. There is no reason why rich finds may not be made on the American side of the line as in the Klondike district."

## KICK ON PAYING DUTIES

Seattle, Wash., July 31.—Prospective gold seekers in the northwest are aroused over the action of the Canadian government in collecting duty at Victoria or Dyea on ever miner's outfit from the United States. A mass meeting has been called by the merchants and outfitters in this city to outline plans for retaliatory action. The idea is that the duty on the outfit is not taken in the interests of collecting revenue, but to compel parties to buy their outfit in Victoria. The secretary of the treasury will be memorialized and requested to withdraw his order making Dyea a sub-port of entry. It was so designated, it is claimed, for the purpose of permitting British steamers to land freight and passengers there.

## MORE GOLD HUNTERS SAIL

Portland, Ore., July 31.—The Oregon Railway and Navigation company steamer, George W. Elder, sailed for Dyea, Alaska, at 11 o'clock last night, with 383 passengers, nearly all of whom are bound for the Klondike. She carried 1,300 tons of freight, her full capacity, 130 horses and barros and 75 dogs. All day long hundreds of people congregated in the vicinity of the river wharf to see the Elder was moved, and at 7 o'clock it was estimated that ten thousand people were on the river bank or on the bridges to bid good-bye to the gold hunters.

Seattle, Wash., July 31.—The steamer Edith sailed for Skagway today, having on board forty-eight hunters intended to pack the freight of the Klondikers over the trail to Lake Lindeman.

The steamer Komie, with 160 passengers for Dyea, left off at 9 o'clock tonight. She was heavily laden with freight, consisting entirely of the outfit of the passengers.

## TO CONVOY THE PORTLAND

Washington, July 31.—Captain Schoemaker of the revenue cutter Service, recently received from Mr. P. B. Weaver, president of the Northern American Transportation company, a letter stating that the steamer Portland, with a large amount of gold, expected to leave St. Michael's, Alaska, for Seattle, between September 26 and October 10, and asking that she be convoyed between St. Michael and Unalaska. The request has been granted and Captain Hooper, in command of the revenue cutter patrol, has been directed to escort the Bear to this date. The published reports that the convoy had been requested through fear of Chinese pirates have afforded much amusement to naval officers, who are of the opinion that some one's credulity has been imposed upon.
